Vadim Gringauz
Fullstack Developer

054-7669352 | vadim.grin28@gmail.com

Professional Summary

After 15 successful years as a youth basketball coach, I am now back to my first passion: Coding.
Programing summer-courses in middle-school, Computer Science studies in HS, "Mamram" course in IDF, Bio-Med engineering studies: All of this previous experience made my transition to Fullstack developer smooth.
As a self-learner I quickly filled all the gaps, and now I am more than ready to use my skills, creativity, experience as an educator, a leader and a "team player" to become a great software developer.

Professional Skills

Front-end: HTML, CSS (including Bootstrap), JavaScript (ES6), React, Redux, Next.js, MUI
